SYSTEMS ADMINISTRATOR
ST KILDA FOOTBALL CLUB

Careers at the St Kilda Football Club represent a unique opportunity to work in a dynamic, fast-paced and team-oriented environment. Our club values creativity, belonging, and performance as we strive to win a second premiership, deliver sustained success and build thriving communities.

We understand who we represent and the privileged position we hold as custodians of a football club built on 148 years of history. While on-field performance is the club's absolute priority, we recognise the important role we play in the community and embrace our responsibility to promote inclusion, gender equality and diversity.

We are seeking a customer service driven **Systems Administrator** to join our IT team.

About the role

Reporting to the Head of IT and playing a key role in the team, you will work across the Club supporting all aspects of our IT systems, including cloud services, computer hardware, software, confirmation data and storage, telecommunications, data communications security, audio/visual systems and equipment.

Your primary focus will be keeping the Club's IT network, servers and security systems in good health. You will diagnose network problems, collect IT usages stats, make improvement recommendations, and carry out routine configuration and installation of IT solutions. You will assist Club employees with some of their more basic computer needs, and work with the Football department in a Mac environment and support the vision editing software, sports analytics, coaching and game day technologies.

About you

You have a broad range of experience with different technologies, are an excellent verbal and written communicator, and most importantly, pride yourself on your ability to provide an exceptional level of service to users. You keep abreast of changes in technology to maximise system performance and overall efficiencies. Your desire to part of a team culture and ability to thrive in a dynamic, fast paced environment will ensure your success in this role.

What you need

- Minimum 4 years' experience in an IT support or systems/network administration role
- Tertiary qualifications ideally in Information Technology or related field
- Microsoft Certification
- Knowledge of relevant IT applications and systems
    - Meraki network infrastructure
    - Microsoft Azure services (Azure AD, Endpoint manager, SharePoint)
    - VMWare
    - Microsoft Windows Server
    - Linux
    - Exchange 365
    - Office 365
- Familiarity with sporting technologies; Empirics, Sportscode, GPS system is an advantage
- Knowledge of computer programming and scripting languages (CMD and PowerShell)

What we offer
- Fantastic culture of grounded people, passionate about what they do
- Genuine workplace flexibility
- Offers from our commercial partners
- On-site parking
- Gym Access

If you connect with our values, who the Saints are and where we are headed, this a brilliant opportunity for a talented IT professional to join us as we continue our march towards a second premiership!

To apply
Please forward your application to careers@saints.com.au , applications will close at **9am on Monday 2nd August 2021**.

The St Kilda Football Club is an equal opportunity employer and encourages applications from individuals of diverse backgrounds to apply. This includes, but is not limited to, those from the Aboriginal and Torres Strait Islander, Culturally and Linguistically Diverse and LGBTIQ communities.

We are committed to protecting the safety and wellbeing of children and young people and fostering a "child safe" culture. It is essential that anyone involved with the St Kilda Football Club understands their responsibility in relation to child safety and supports such an environment.
